950 Litre Bunded Adblue Polycube c/w 12v Pump

950 Litre Bunded Adblue Polycube

DESCRIPTION:

The 950 litre Adblue Polycube is based on the [standard diesel Polycube](#) meaning it can be stacked on top of a diesel Polycube. The 950 Adblue Polycube is ideal for storage of Adblue in a depot for maintaining the Diesel Exhaust Fluid in HGV, LGV, diesel motor vehicles and heavy diesel powered equipment. By purchasing Adblue / DEF in bulk you will make a significant saving in price. The Adblue Polycube is also a perfect fit in the bed of a pick up truck meaning you can easily turn this static tank into a mobile unit. [A Polycube trailer is also available upon request.](#)
