The **VB9-L30** by Generac® Mobile Products is a new version of the best-seller VB9 lighting tower, now equipped with 4x300W high efficiency LED floodlights.

The VB9 is the 'fuel saving' pioneer model of Generac® Mobile Products: the first lighting tower allowing up to a 75% fuel saving and carbon emission compared to a traditional lighting tower.

VB9_{ECO}

LED TOWER LIGHT

4x300 LED LAMP
24V Powered

The lighting power of 4x300W LED floodlights is comparable to the one of a traditional 4x1000W Metal Halide lighting set. The combination of this high luminous efficiency with a low consumption engine makes the **VB9-L30** a lighting tower with a strong sustainability statement, with great fuel economy and notable reduction in carbon emissions.

ROAD-TOW TRAILER

The standard version of the VB9-L30 is equipped with a road-tow trailer, with single axle, jockey wheel, braking systems and lights. Also EU homologation is provided with documents for registration

TOP ACCESSIBILITY.

3 doors for a wider access. 2 wide doors provide a complete access to the technical area. 1 compass-top door allows a full access to the engine for a safe and convenient maintenance.
